SUMMARY

Front-End Developer with 10+ years of experience building websites and modern web applications, including 7+ years of professional experience delivering digital products for agencies, organizations, and freelance clients.

Specialized in React, Next.js, TypeScript, and Headless CMS architectures, with experience building scalable, maintainable, and high-performance applications. My background in web design allows me to bridge the gap between design and development, translating UI concepts into accessible, responsive, and production-ready interfaces.

Currently pursuing a Postgraduate Certificate in Software Engineering at PUC-Rio, expanding my expertise in software architecture, back-end development, and engineering best practices.

SKILLS

Languages TypeScript, JavaScript, HTML, CSS

Libraries & Frameworks React, Next.js, Tailwind CSS

Front-End Practices Server-Side Rendering (SSR), Static Site Generation (SSG), SEO, Responsive Design, Accessibility (WCAG), Performance, Component Architecture
